

Prezi Guidelines

- Because there are three people in each group, there needs to be a minimum of 24 slides. (24-30 slides)
- I want quotes, photographs, videos, charts, and artwork. If it's relevant to your subject's life work, I want it in the presentation. There needs to be a minimum of 15 media sources. (photos, videos, pictures, etc)
- If your person was an artist, there need to be pictures and explanations of his artwork and an explanation of its importance.
- If your person was a musician, there need to be video or audio clips infused within the presentation.
- There needs to be a *Resource page at the end of the presentation citing your sources*. It needs to be in MLA format. This may seem hard to do, but if you use easybib.com, citing sources is easy as it formats it for you.
- You may not cite Wikipedia. You can use it to gain background information, but it is not a credible source for information. The purpose of this project is for you to develop the collaborative and research skills needed to do well in college.
- I want a minimum of two books from the library as well.
